# Descor®

acoustic stretch fabric

**Create unique interiors with Descor® sound absorbing fabric. Wall or ceiling mounted on a perimeter track system, Descor® acoustic material is the visually-stunning solution to noise problems in homes, offices, schools, restaurants, theatres, retail and commercial areas.**

The Descor® system offers exceptional acoustic properties whilst allowing you to choose your design from our wide range of images and personalise your room to suit the atmosphere and decor you desire.

Descor® design may be applied to walls and ceilings all shapes and any size (up to 5m wide and 50m long without a seam).

Descor® design allows you to easily create a large-scale picture, artwork or photo mural for your wall or ceiling.

Our consultants and graphic designers will provide you with support to make 'tailor-made' projects.

Descor® design system is ideal to conceal damaged, cracked or stained ceilings and walls, hide beams, visible cables and piping or just to give your decor a new lift.

## Applications

- New buildings or refurbishment
- Residential or Corporate
- Hotels/Motels
- Entertainment & Conference Centres
- Restaurants
- Shopping Centres
- Schools & Tertiary
- Indoor Swimming pools & Bathrooms

This system can be used with any decorative fitting, light fittings, air conditioning grills, down lights, etc.

With Descor's® clean design system you no longer need cheap cladding such as plasterboard, coatings or even worry about painting. Descor® is well suited for damp or chlorinated environments.

## Key benefits

- Acoustic attenuation with maximum effect and Architectural design
- Endless possibilities such as creating curved, creating curved, arched, horizontal, pitched and vertical surfaces
- Hides unsightly imperfections of cracks, stains, pipes, cables or flaking paintwork
- Economical installation, finish and decoration in one unique solution
- Use in kitchens, bathrooms & indoor swimming pools unaffected by bumps or humidity
- Complies with BCA requirements
- Replacement of decor possible on same frame
- Easily installed by professionals, no need to remove furniture
- Low VOC's, odourless, non toxic.

The type of materials and the quality of the coating allow optimal tension to be achieved, without joints, seams (up to 5m wide and 50m long) or suspension brackets.

Have your own high resolution photograph or a favourite artwork transformed on your walls or ceilings.

Alternatively choose from a wide range of royalty free images on: [www.shutterstock.com](http://www.shutterstock.com) or Commission\* your own original artwork.

Our consultants will be happy to quote over the phone or visit the premises for a more accurate recommendation.

**Descor is suitable for all types of walls and ceilings and offers incomparable visual appearances.**
